SMART ADULT EDUCATION PROJECT

Smart Adult Education wants to promote innovative methods and pedagogies, as well as participatory modes of governance, where appropriate. Another priority will be updating and developing digital learning materials and tools, in particular Open Educational Resources, open textbooks, and Free and Open Source Educational Software, as well as supporting the effective use of digital technologies and open pedagogies in education, training, youth and sport. This will include fostering synergies with research and innovation activities and promoting new technologies as drivers of improvements in education, training, youth and sport policies and practices. The Programme will also support new teaching methods and tools.

Extending and developing educators competences, particularly in the effective teaching of literacy, numeracy and digital skills to low-skilled or low-qualified adults, including through the effective use of ICT
